

27<sup>th</sup> April 2020

Dear Parents and Carers,

I hope you all had a lovely weekend.

Thank you to everyone who has engaged with Class Dojo over the past couple of weeks. This has been a new venture for us and we were keen to have a platform that enable two way communication during this time. It has been lovely to see the videos posted there as well as the completed tasks. Interaction with Purple Mash is also very positive and I hope our school website has some useful information for you too. Here are some interesting figures from the Class Dojo report at the end of last week!

However, we also realise that it is easy to feel overwhelmed work-wise, so firstly a reassurance that we are not expecting you to do it all! People prefer different platforms and different activities, so we are trying to make sure there is something for everyone.

Our school website has activities, especially maths, that can be printed off as well as a page with links to other sites if you wish to explore them. On the class Purple Mash should be activities which the children can do independently, and there are plenty of additional activities in the weekly activity section. Class Dojo is more for fun, a bit of writing and general class engagement.

Please do let your class teachers know what is and isn't working when they call you of via Dojo. They are happy to adapt where possible but different sites and activities appeal to different people.

This week we have posted a Science and Technology Challenge, this is called 'Brilliant Birds' and can be found at this link <https://youtu.be/oX3mplMYQ4U>. You may well recognise the presenter and her able helper! We have added this to Class Dojo so photos can be shared.

**Brilliant Birds**

A practical activity that can be delivered at home or school. For ideas to test the nest, look at the CREST Superstar organiser and activity information at [t...youtu.be](https://youtu.be/oX3mplMYQ4U)

Best wishes,  
Ms Howard
