

Science

Our Science Topic this half term is Rocks.

We will be learning about different rock types, how to compare and group them along with their soils, how to describe how fossils are formed, how to recognise that soils are made from rocks and completing our own experiment.

If you would like to find out more, click the link below.

Computing

In Computing we are learning about online safety and pictograms. This will allow the children to be able to be online safely and represent data.

Remember to use purple mash to support your learning.

Geography

In our Geography lessons we will be looking into our enquiry question 'How are settlements formed?' To help us answer this question we will be considering other questions such as what is a settlement? What human and physical features can we find in our settlement? and How are settlements formed?

Art

In Art this half term we will be focusing on our drawing techniques with a specific focus of architecture. We will be working towards designing our own building. To help us do this we will be thinking about what architecture it as well as comparing building designs by artists to help us identify use of shape, colour and pattern.

Music

In Music this half term we will be learning to play the recorder. We will be learning about the different techniques needed to play the recorder as well as being able to copy simple melodies and respond to pitch changes. The children will also be creating their own recorder composition from a stimulus and perform this to their peers.

If you would like to listen to our listening focus for this half term follow the link below.
