

## Year 1 Remote Learning & Feedback

### English (approx one hour total each day)

#### Phonics:

Each day a phonics programme will be signposted on Class Dojo with an activity to follow the programme.

#### Reading:

Pupils are allocated reading books on the website [www.activelearnprimary.co.uk](http://www.activelearnprimary.co.uk) (please message me for your child's login if you have not got it). The pupils need to read the books allocated to them. Please continue to post a photograph on Class Dojo of your child's reading record each week. Later in the term reading tasks will be set on Purple Mash.

#### Writing:

We will be continuing with the Sentence Stacking approach, which the pupils are already familiar with. The class teacher will record a daily video to help with the thinking side and post a modelled sentence. Pupils will need to submit their sentences each day, but not their thinking side notes. Three pupils' sentences will be selected from the submitted work each day to make a virtual class sentence stack.

#### Spellings:

Spellings will be set each week on ClassDojo. Pupils should test their spellings on a Monday, mark and put a photo in their 'Portfolio' with their total score.

### Maths (approx. 45 mins each day)

We will continue our 'Do it, Secure it, Deepen it' approach. Each week, daily worksheets will be posted to ClassDojo. Pupils will be signposted to White Rose Maths introduction videos to watch or I will post on Class Dojo a video to explain the concept of the lesson to be learnt, before attempting the worksheet. Each week, whole year group feedback will be given addressing any misconceptions.

### History (30 mins once a week)

This will be posted on Class Dojo one lesson a week. The topic this term is all about Isambard Kingdom Brunel as well as some work on Victorian Britain.

### Science (45 mins once a week)

We will be following a unit from Oak Academy with one lesson a week. The topic of the lessons will be on Materials, focusing on different types of materials and their properties.

### PSHE (30 mins once a week)

In school we use the Coram Education lessons and we will be focusing on the topic Keeping Myself Safe. We will explore this topic through discussions around safety, internet safety.

### RE (30 mins once a week)

The work this term will explore the Muslim faith and finding out about life as a Muslim.

### Computing (30 mins once a week)

In computing we will be focusing on creating pictures using 2paint a picture on Purple Mash to use different effects and styles of painting through the programme.

### Art ( 30 mins once a week)

Art for this term will on drawing and collage using different materials to create art pieces with a focus which is connected to other areas of work, for example Science and the materials topic.
